

PURISHIELD®

FAST-ACTING WOUND CARE SPRAY

PATENTED PURIFECT® TECHNOLOGY

Uses the breakthrough Ceragenin molecules to mirror the natural immune system and accelerate recovery.

A novel broad-spectrum antimicrobial compound that mimics the structure and function of antimicrobial peptides, or AMPs, used by the body to fight off infection and promote healing by harnessing the power of the innate immune system. **Purifect Technology** is formulated with the ceragenin class of revolutionary patented molecules.

Ceragenins exhibit excellent, rapid **bactericidal, fungicidal** and **viricidal** results against a wide variety of pathogens, including Gram-positive and Gram-negative bacteria including multi-drug-resistant strains of bacteria such as Methicillin-resistant Staphylococcus aureus (MRSA) and Pseudomonas aeruginosa as well as strains of yeast including Candida albicans.

Purishield Wound & Skin Care FAST-ACTING SPRAY	What is Ceragenin?	How Ceragenin Works
<p>Purishield uses breakthrough science-- patented Purifect® Technology with Ceragenin</p> <p>Not another "me too" hypochlorous acid product.</p>	<p>A new class of molecules that work immediately to mirror your horse's immune system. Helping it repair and restore damaged tissue faster and more effectively.</p>	<ul style="list-style-type: none"> ✓ Promotes healing ✓ Repairs and restores damaged tissue ✓ Provides 24hr protection ✓ Non-toxic, non-irritating, non-stinging, non-staining ✓ Safe for multispecies use

JUMP-STARTS RECOVERY

Liquid spray cleans and treats in one easy step.

FIRST LINE OF DEFENSE
Stops harmful pathogens on contact with continued protection for up to 24 hours.
