

# **Sure Coat Max**

## ***Sullivan Supply***

With Sullivan's **Vita Hair**

Supercharged formula to maximize hair growth potential.

The natural oils include:

Coconut Oil, Jojoba Oil, Olive Oil, Lanolin, Tea Tree Oil, Peppermint oil, Thyme Oil

Contains a natural-derived blend of humectants that seal in moisture and nutrients to the hide, providing the ideal environment for hair growth and a vibrant, show-stopping look.

A blend of natural essential oils, including peppermint and thyme oils, stimulate circulation to hide, especially the hair follicle. This allows the nutrients and hair growth action of the Sure Coat Max blend to penetrate and get to work!

The Sure Coat Hair Max is a proprietary blend of natural extracts which work on a molecular level during the hair growth pathway. This blend triggers hair to stay in the active growth phase of the hair growth cycle.

Ingredients such as coconut oil and olive oil contain a high concentration of omega fatty acids, highlighting the natural vibrancy of the hide from the inside out.

### **Directions for Use:**

- 1 – Shake well and apply to clean, dry hair.
- 2 – Spray entire body daily.
- 3 – Work into hair shaft with Sullivan's Sensation Comb.
- 4 – Let sit under fan to dry.
- 5 – Work hair with comb and blower.
- 6 – Place animal under fans.

**Infused with Sullivan's VITA HAIR nourishing vitamin package.**

### **How do the VITA HAIR Nourishing Vitamins Work?**

**Biotin** is the first vitamin thought of when considering HAIR GROWTH. The major benefit of Biotin is its ability to strengthen the hair follicle, along with increased elasticity of the cortex to prevent hair breakage and dryness. This enables healthy, FASTER HAIR GROWTH. Biotin also thickens the actual hair cuticle providing a fuller appearance.

**Pro-Vitamin B-5** is considered the king of all HAIR CARE Vitamins. It stimulates healthy scalp circulation, which leads to improved hair health. It possesses superior

long term moisturizing properties because of its unique ability to penetrate and nourish the hair shaft then sealing the surface to protect and make the hair shine.

**Vitamin E** is an antioxidant that stimulates circulation to the skin and supports capillary growth. When there are more capillaries, the circulation improves, leading to increased absorption into the hair follicles, which speeds hair growth.
