Feeding Guidelines: For a healthy benefit for your indoor cat, feed 18 treats per 10 lbs of cat throughout the day. As with any treat, adjust amount of main meal to compensate for calories delivered by treats. If fed as a main meal, feed 2/3-3/4 cup per 10 lbs of adult cat daily. Always monitor your pet while feeding. Provide fresh drinking water at all times. See your veterinarian regularly. To help maintain freshness, we recommend sealing the bag tightly and storing in a cool, dry location.
