For over 30 years, Vet's best® has blended premium quality and plant-based ingredients that work together to comfort and protect your pet.

- ✓ Kills fleas, ticks, mosquitos, spiders, ants, bed bugs, roaches, and house & stable flies by contact
- ✓ Breaks the flea life cycle
- ✓ Safe for use on dogs, Pet bedding, Crates, Carpets, Flooring Rugs and drapes

Directions for Use: Read entire label before each use and use only in accordance with label instructions.

For severe infestations, first consult your veterinarian for treatment recommendations. If your pet is undergoing any medical treatment or has known sensitivities or allergies, please consult your veterinarian before using this product.

For Dogs 12 weeks of Age or Older: Shake well before use. Sensitivity may occur with the use of any product on individual dogs. Spray a small amount on the dog, observing for any signs of sensitivity (skin irritation, rapid breathing, incoordination, etc.) for one hour. Thereafter, apply a light spray on the dog's coat and brush in so product reaches the skin. Do not saturate or soak the coat. Use caution to avoid contact with eyes, nose, mouth, genitals, and other sensitive areas. Let coat dry completely before allowing dogs to groom themselves. To minimize incidental ingestion. Wash hands thoroughly after use.

If fleas or ticks are present, apply two times per week with at least 48 hours between applications. For ongoing prevention and maintenance apply 1 time per week.

For Pet Bedding, Pillows, Blankets, Carpets & Rugs: Shake well before use. This product is designed to be non-staining, however, always apply a small amount to an inconspicuous area to test for colorfastness. Spray the surface uniformly with a light spray. Do not saturate or soak. Allow product to dry before allowing dogs to re-enter the area. Not recommended for use on fine furniture. Wash hands thoroughly after use. Apply 1 to 2 times per week with at least 48 hours between applications.

To help reduce the occurrence of fleas and ticks, this product is best used year-round when combined with other Vet's Best® products for pets, home and yard.

Precautionary Statements Hazards to Humans and Domestic Animals

Humans: Causes moderate eye irritation. Wash hands thoroughly with soap and water after use. Prolonged or frequent repeated skin contact may cause irritation in some individuals. For external use only.

Dogs: Sensitivity may occur after use of any product with individual dogs. Monitor your dog for signs of sensitivity during and after application. If signs of sensitivity occur, bathe your dog with mild soap and rinse with large amounts of water. If signs of sensitivity continue, consult a veterinarian immediately. Consult a veterinarian before using this product on debilitated, medicated, pregnant or nursing dogs. Do not use on or near puppies younger than 12 weeks old.

Other Domestic Animals: Use caution to avoid application on or near cats, fish and other domestic animals. For external use only.

First Aide

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lens, if present, after the first 5 minutes, then continue rinsing eye. If irritation persists, contact a physician.

If On Skin: Wash with soap and water and repeat if necessary.

Inhalation: Remove to fresh air.

Ingestion: Immediately drink plenty of water. Do not induce vomiting. If symptoms persist, contact a physician.

Storage: Store only in original container in a cool, dry area inaccessible to children.

Disposal: In accordance with all Federal, State and Local regulations. Recycle when available or discard in trash. **If Empty:** Do not reuse this container.
