

# JustiFLY® Equine 8-8-8™ Feed Through Fly Control

## Champion Animal Health

Prevents development of stable fly, horn fly, and house fly in the manure of treated horses.

Active Ingredient

Active Ingredient Diflubenzuron\* (CAS# 35367-38-5) ..... 0.24%

Other Ingredients ..... 99.76%

Total ..... 100.00%

\*Contains 1.09 grams of diflubenzuron/lb.

EPA Reg. No 91586-11

EPA Est. No. 100929-MI-01

### KEEP OUT OF REACH OF CHILDREN CAUTION

#### Directions for Use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Read entire label before each use.**

**Do not use on horses intended for slaughter**

For use in feeding, working, non-working, running, pleasure horses, donkeys, mules and ponies.

#### Daily dose for top dress

Feed the labeled dosage of JustiFLY® Equine 8-8-8™ to each horse separately to make certain it received the full ration. This product may be feed top dressed on grain or mixed with the horse's total ration to provide 6.8 mg of diflubenzuron per 100lbs of body weight. Can also be feed in a pre-measured pre-shaped treat. For occasional finicky eaters who do not accept new feeds regularly, mix the product with sweet feed or grain ration. Start feeding this product in the early spring before flies appear and continue feeding throughout the summer and into the fall until cold weather restricts activity.

Weight of Horse	Daily dosage for Granules
300-500 lbs.	Feed one measuring cup (equivalent to 0.4 ounces) filled to the 500pound line per horse per day.
500-700 lbs.	Feed one measuring cup (equivalent to 0.6 ounces) filled to the 700pound line per horse per day.
700-900 lbs.	Feed one measuring cup (equivalent to 0.8 ounces) filled to the 900pound line per horse per day.

900-1100 lbs.	Feed one measuring cup (equivalent to 1.0 ounces) per horse per day.
1100-1300 lbs.	Feed one and a half measuring cup (equivalent to 1.5 ounce) filled to the 500-pound line per horse per day

For horses over 1,300 lbs. of body weight, feed an additional 0.2 oz for each additional 200 lbs. of body weight.

This product contains diflubenzuron, an insect growth regulator, which prevents the development of house flies, stable flies & horn flies in the manure of treated horses, but is not effective against existing adult flies. In order to achieve optimum fly control, this product should be used in conjunction with other premise & on-animal products as well as good sanitation practices. Start feeding JustiFly® Equine 8-8-8™ in the spring before Stable, Horn & house flies begin to emerge & continue use until cold weather marks the end of fly season.

### Precautionary Statements:

**Hazards to Humans and Domestic Animals: Caution.** Causes moderate eye irritation. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Wear long-sleeved shirt & long pants, socks, shoes, and gloves. Remove & wash contaminated clothing before reuse.

<b>First Aid</b>
