

GastroMend®

SynNutra Equine

Resolve Recover Restore

GastroMend® A new approach to gastric ulcer management...

Gastro Mend® Is formulated for horses with a blend of unique ingredients chosen for their potential to support stomach lining (gastric mucosa) health without affecting normal acid production, a key aspect of a healthy stomach.

Healthy stomach= Healthy appetite & optimum absorption.

Don't just treat the pain...

Equine gastric ulcers are commonly caused by stress (training, competing, high concentrate feed, etc.) and the chronic use of non-steroidal anti-inflammatory drugs (NSAIDs). Stress and NSAIDs can reduce mucus production in the stomach, allowing acid to damage the underlying epithelium.

GastroMend® is an all-natural supplement formulated to support stomach health in horses. It contains ingredients that are believed to be beneficial for the stomach lining by potentially influencing the production of components like collagen and fibronectin. This supplement can be administered alone or in conjunction with a low dose acid inhibitor, based on the recommendation of a licensed veterinarian.

GastroMend® contains natural ingredients to promote gastric health.

Horses with good gastric health look better and live better!

Instructions: Administer one scoop twice daily by top dressing feed or by dose syringe. Some horses may need oral dosing by syringe for a few days until appetite returns.

GastroMend® contains no drugs, banned or controlled substances and there are no withdraw times for the ingredients. For specific rules and guidelines regarding dietary supplement use., contact the authorities in your specific jurisdiction.

GastroMend® is a dietary supplement for horse use only. It is not intended for human consumption. KEEP OUT OF REACH OF CHILDREN. There are no known interactions or contradictions for this product.

GastroMend® has not been tested in pregnant or lactating mares. No adverse effects have been reported. In the case of allergic reactions to this product, discontinue use immediately.
