

Gallagher's Water Balanced Electrolytes and Trace Minerals for Horses

Gallagher's Water[™]

How to Use: Add 1-2 Scoops to Gallagher's Water for an extra boost of electrolytes or mix in feed or 2 gallons of fresh water.

Use to replenish electrolytes and trace minerals horses lose during hot weather, exercise, and hauling.

Ingredients: Salt, calcium citrate, potassium chloride, magnesium citrate, zinc gluconate, copper gluconate, manganese citrate.

Nutrients per 7.5ml scoop	Approx. 60 servings per container Serving size 1 scoop
